CONTROL OF AIR CONTAMINANTS

6.—(1) No person shall operate or cause to be operated any equipment that does not comply with the minimum specifications set out in the standards therefor in respect of air quality in section 10 of this Regulation.

(2) No person shall cause or permit to be caused the emission of any odour to such extent or degree as,

- (a) causes discomfort to persons;
- (b) causes loss of enjoyment of normal use of property; or
- (c) interferes with normal conduct of business.

7.—(1) The Department shall prepare a chart to be known as the "Smoke Density Chart" of the Ontario Department of Health.

(2) The Smoke Density Chart shall be prepared by the recording in five consecutive areas on the chart of fine black dots or lines evenly spaced on a white background in such manner that,

- (a) approximately 20 per cent of the space in the first area is black, such area to be designated density No. 1;

- (b) approximately 40 per cent of the space in the second area is black, such area to be designated density No. 2;
- (c) approximately 60 per cent of the space in the third area is black, such area to be designated density No. 3;
- (d) approximately 80 per cent of the space in the fourth area is black, such area to be designated density No. 4; and
- (e) approximately 100 per cent of the space in the fifth area is black, such area to be designated density No. 5.

(3) For the purpose of enforcing the Act and this Regulation, no person other than a provincial officer shall determine smoke density by a Smoke Density Chart.

(4) The density or opacity of smoke shall be determined by visual observation by,

- (a) holding a Smoke Density Chart at arm's length;
- (b) viewing the smoke at approximately right angles to the line of travel of the smoke; and
- (c) matching the shade of the smoke to the nearest shade of smoke density on the Smoke Density Chart.

(5) Where the density or opacity of smoke is determined under subsection 4, the smoke is deemed to be of the density on the Smoke Density Chart that it most closely resembles and to have the density number designated on the chart for such density.

8.—(1) Except as provided in this section, no person shall cause or permit to be caused the emission of smoke having a density or opacity greater than density No. 1.

(2) For a period or periods of not more than four minutes in the aggregate in each half-hour period, the smoke may not have a density or opacity greater than density No. 2.

(3) Where a new fire is started in any fuel burning equipment, for a period or periods of not more than three minutes in the aggregate in each quarter-hour period, the smoke may not have a density or opacity greater than density No. 3.

9. Where at any stationary source of air pollution a failure of equipment to operate in the normal manner or a change in operating conditions occurs or a shutdown of the equipment or part thereof is made for some purpose, resulting in the emission of air contaminants in greater quantity or concentration than may reasonably be expected in respect of such stationary source of air pollution or equipment,

- (a) the owner or operator of the equipment shall immediately notify a provincial officer and furnish him with particulars of such failure, change or shutdown;
- (b) where the owner or operator does not effectively cease the emission of the air contaminants from such equipment, he may request from the provincial officer permission to continue the operation of such stationary source of air pollution; and

APPLICATION

6. This Part applies to general legislative grants to elementary-school boards with respect to corporation assessment.

INTERPRETATION

8. The average corporation assessment per pupil in a municipality, correct to two places of decimals, shall be determined by dividing the total corporation assessment in the municipality, as shown on the 1966 assessment roll, by the enrolment of elementary-school pupils resident in that municipality on the last school-day of September, 1967.

9.—(1) In a municipality where, according to the 1966 assessment roll, the corporation assessment is 3 per cent or more of the total assessment, there shall be calculated and, subject to subsection 2, allocated to each elementary-school board for purposes of section 11 and subsection 6 of section 13 the amount of assessment computed by multiplying the enrolment of pupils, including those whose fees are payable by the board, resident in that municipality in the area under the jurisdiction of the board on the last school-day of September, 1967 by the average corporation assessment per pupil as determined in section 8.

(2) The amount of assessment in a municipality allocated to a board under subsection 1 shall be limited to the excess of the amount calculated for the board over the amount of corporation assessment in the municipality already supporting the board and shall be not less than zero.

11. A board to which assessment has been allocated under section 9 shall be paid a grant of the amount determined by multiplying the product of the assessment so allocated and .001 by the greater of,

PART 7

GRANTS FOLLOWING ANNEXATION AND CHANGE IN STATUS

42. This Part applies to grants following annexation and change in status.

43. In this Part,

- (a) “annexation” includes amalgamation;
- (b) “average daily enrolment” means the sum of the resident-internal average daily enrolment and resident-external average daily enrolment;
- (c) “urban municipality” means a borough, city, town or village, with a population of 14,000 or more;
- (d) “non-urban municipality” means any municipality other than an urban municipality;
- (e) “change in status” means a change between the 1st day of January, 1958 and the 31st day of December, 1963, both inclusive, from a non-urban municipality to an urban municipality as defined in clauses *c* and *d*.

44. Where the whole or part of a municipality was annexed to an urban municipality on or after the 1st day of January, 1949, or where, on or after the 1st day of January, 1958, but before the 1st day of January, 1964, an area comprising all or part of one or more non-urban municipalities became an urban municipality, and at the date of annexation or change

in status there were outstanding debentures for one or more school buildings in that municipality or part, as the case may be, the debt charges to the extent that they were eligible for grant for the board of the school-section, separate-school zone, or secondary-school district in the area annexed or in the non-urban municipality in the year of annexation or change in status shall, except in the year of annexation or change in status, be eligible for a grant at the rate by which the greater of,

- (a) the rate applicable to the board of the school-section, separate-school zone, or secondary-school district in the annexed area or in the non-urban municipality for the year of annexation or change in status; and
- (b) the rate applicable to the board of the school-section, separate-school zone, or secondary-school district of the urban municipality for the year of annexation or change in status,

exceeds the effective rate applicable to the board of the school-section, separate-school zone, or secondary-school district of the urban municipality for the current year.

45.—(1) In the year in which the whole of a school-section, of a separate-school zone, or of a secondary-school district is annexed to an urban municipality, the grant shall be calculated under the provisions of subsection 1 of section 33.

(2) In the year in which part of a school-section, of a separate-school zone, or of a secondary-school district is annexed to an urban municipality and, on the last school-day of September preceding the annexation, the number of pupils that resided in the part annexed was not more than ten per cent of the number of pupils residing in the school-section, in the separate-school zone, or in the secondary-school district, and that percentage was not more than 10 pupils, the grant shall be calculated as though there had been no annexation and be paid to the board from which the area has been detached.

(3) In the year in which part of a school-section, of a separate-school zone, or of a secondary-school district is annexed to an urban municipality and, on the last school-day of September preceding the annexation, more than 10 per cent of the pupils residing in the school-section, separate-school zone, or secondary-school district, or more than 10 pupils, resided in the part annexed, the grant shall be calculated and paid under the provisions of subsection 3 of section 33.

46.—(1) Where on or after the 1st day of January 1949, an urban municipality having a population in the year preceding annexation of 14,000 or more, annexed an area in which the combined average daily enrolment of public-, separate-, and secondary-school pupils resident in that area exceeds 20 per cent of the combined average daily enrolment of public-, separate-, and secondary-school pupils resident in the urban municipality having the largest population, or where on or after the 1st day of January, 1958, but before the 1st day of January, 1964 an area comprising all or part of one or more non-urban municipalities became an urban municipality, there shall be paid to each board of the urban municipality an annexation or change-in-status grant per pupil as set forth in subsections 2, 3, and 4.

(2) The annexation or change-in-status grant per pupil shall be 100 per cent of the amount by which the grant per pupil paid under this Regulation to the board or boards of the urban municipality in the year of annexation or change in status is exceeded by the grant per pupil paid in the same year in the annexed area or in the non-urban municipality, ascertained by dividing the grant paid in each case, exclusive of the enrolment growth grant, the northern assistance grant and the grant on recognized extraordinary expenditure, by the average daily enrolment.

(3) Subject to subsection 5 in the second, third, fourth and fifth years following annexation or change-in-status,

- (a) the annexation grant per pupil shall be paid on the excess of the average daily enrolment of the board of the urban municipality subsequent to annexation over the average daily enrolment of the urban municipality in the year preceding annexation; and
- (b) the change-in-status grant shall be paid on the average daily enrolment of the urban municipality.

(4) Subject to subsection 5, in the sixth year following the annexation or change in status, the percentage of the grant per pupil shall be reduced by 20, and in each year thereafter, by 20 for each additional year.

(5) For purpose of the payment of the annexation grant per pupil under this section, the ordinal numbers applying to the years following the annexation in subsections 3 and 4 apply as if the years 1958, 1959, and 1960 had not existed.

PART 8

GRANTS FOLLOWING ENLARGEMENT

47. This Part applies to grants following the enlargement of larger units of administration or the enlargement of secondary-school districts, but does not apply where Part 7 is applicable to the annexation of one municipality by another or to the amalgamation of two or more municipalities.

48. In this Part, "average daily enrolment" means the sum of resident-internal average daily enrolment and resident-external average daily enrolment.

49.—(1) Where, on or after the 1st day of January, 1965,

- (a) an elementary-school board is formed for the union of parts or all of the areas under the jurisdiction of two or more elementary-school boards and, for each of at least two of the areas that unite, the average daily enrolment in the preceding year was 300 or more; or
- (b) a secondary-school board is formed for the union of,
 - (i) two or more secondary-school districts,
 - (ii) two or more secondary-school districts and parts of one or more secondary-school districts,
 - (iii) parts of two or more secondary-school districts and, for each of at least two of the parts that unite, the average daily enrolment in the preceding year was 300 or more, or
 - (iv) a secondary-school district and parts of two or more secondary-school districts where for at least one of the parts the average daily enrolment in the preceding year was 300 or more,

there shall be calculated, and where applicable, paid to the board an enlargement grant per pupil as set forth in subsections 2, 3, 4, and 5 and a grant as set forth in subsection 6 on the debt charges on debentures outstanding on schools in the united area at the time of the union.

(2) The enlargement grant per pupil shall be the excess of the grant per pupil calculated on behalf of the former boards for the year in which the union took place over the grant that would have been payable to

the newly-formed board for the year in which the union took place if the union had occurred one year earlier, ascertained in each case by dividing the grant, exclusive of the enrolment growth grant, the northern assistance grant and the grant on recognized extraordinary expenditure, by the average daily enrolment.

(3) The enlargement grant per pupil shall be paid in respect of the average daily enrolment in the enlarged area.

(4) In the second and third year following the union, the enlargement grant per pupil shall be 100 per cent of the amount as determined in subsection 2.

(5) In the fourth year following the union, the percentage of the enlargement grant per pupil shall be reduced by $33\frac{1}{3}\%$ and in each year thereafter by $33\frac{1}{3}\%$ for each additional year.

(6) Subject to subsection 7 where, at the time of union, there were outstanding debentures for one or more school buildings in the united area, the debt charges, to the extent that they are eligible for grant in the year in which the union took place, shall, except in the year in which the union took place, be eligible for grant at the rate by which the rate applicable to the former board in the year in which the union took place exceeds the effective rate applicable to the board of the enlarged area in the current year.

(7) For purposes of determining the rate of grant applicable to the former board in the year in which the union took place, as required in subsection 6, capital expenditures from the revenue fund included in recognized extraordinary expenditure shall not exceed the product of \$1000 and the number of class-room units as determined in subsection 4 of section 13.

PART 9

PART VIII

FINANCE COMPANIES

59.—(1) A receipt shall not be issued for a prospectus of a company, other than a company registered under *The Loan and Trust Corporations Act*, doing business primarily as an industrial company, investment company, mining company, or mutual fund company, if that company has as part of its name the word "acceptance", "credit", "finance", "loan" or "trust".

(2) Subsection 1 does not apply to,

(a) a company that has the words "investment trust" as part of its name before this section comes into force; or

(b) a company that includes on the face or cover page of the prospectus a statement, satisfactory to the Director, indicating the nature of the business actually carried on.

60. Upon receipt of a written request from any debt security holder of a finance company, the finance company shall supply to the debt security holder a copy of the most recent comparative financial statement filed with the Commission pursuant to subsection 1 of section 120 of the Act, and, where applicable, the comparative interim financial statement filed with the Commission pursuant to subsection 1 of section 129 of the Act.

61.—(1) A receipt shall not be issued for a prospectus of a finance company relating to a debt security not issued under a trust indenture unless there is clearly set forth on the face or cover page of such prospectus a statement to the effect that such debt security is not issued under a trust indenture.

(2) Without limiting the power of the Director under section 61 of the Act, if it appears to the Director that the designation of a preferred share or a debt security referred to in any prospectus of a finance company filed pursuant to Part VII of the Act is misleading, the Director may order the Registrar not to issue a receipt for such prospectus unless,

(a) such designation is amended to make it, in the opinion of the Director, not misleading; or

(b) there is included on the face or cover page of the prospectus a statement that when read with such designation makes such designation, in the opinion of the Director, not misleading.

62.—(1) Every finance company, in addition to any other requirements, shall file with the Commission,

(a) annually, within 170 days of the end of its financial year,

(i) a report prepared in accordance with Form 17, and

(ii) such Canadian Sales Finance Long-Form Report as is adopted by the Investment Dealers' Association of Canada and the Federated Council of Sales Finance Companies and as is deemed appropriate by the Commission;

(b) semi-annually, within sixty days of,

(i) the end of its financial year, and

(ii) the date to which the interim financial statement is made up,

a statement prepared in accordance with Form 18; and

(c) such other forms as are deemed appropriate by the Commission.

(2) The Commission upon application by a finance company may determine and rule that the mode of operation of the applicant is such that some or all of the reporting provisions of the Canadian Sales Finance Long-Form Report are not applicable and answers thereto need not be filed with the Commission, in which event the Commission shall designate the scope and nature of the report to be filed, such determination and ruling is final and there is no appeal therefrom.

(3) Every report referred to in clause a of subsection 1 shall be accompanied by the report of an auditor, stating that the auditor,

(a) has reviewed the report of the finance company and, during the course of such review and the examination of the company's financial statements, has obtained no knowledge to indicate that the company's report is not properly stated;

(b) during the course of the review of the finance company's report and the examination of the financial statements, has found nothing that leads him to believe that the company is not operating in conformity with all its borrowing agreements, as at the date of the examination; and

(c) has found no transactions of the finance company that have come to his attention that have not been within the powers of the company.

(4) Three complete copies of the report required by clause a of subsection 1, including exhibits and all papers and documents filed as a part thereof, shall be filed with the Commission,

and at least one complete copy shall be filed with the Toronto Stock Exchange if any capital security is listed thereon.

(5) At least one of the copies,

(a) filed with the Commission; and

(b) filed with the Toronto Stock Exchange,

shall be manually signed and any unsigned copies shall be confirmed.

63.—(1) The Commission may in its discretion direct that the issuance of a receipt for a prospectus of a finance company be refused until such time as the company proposing to distribute securities to be affected by the prospectus delivers or causes to be delivered to the Commission undertakings, satisfactory to the Commission, to file the reports required under section 62, in which undertakings the company and such of its directors and officers and associates as the Commission may designate undertake to comply with the terms and conditions of section 62 or such of the provisions of section 62 as the Commission may specify.

(2) The Commission may in its discretion, if satisfied that an undertaking given under subsection 1 has not been complied with, direct the Registrar either to refuse to issue a receipt for a prospectus relating to securities of the finance company that previously delivered an undertaking to the Commission, or refuse to issue such receipt unless the company and such of its directors and officers, or associates, as the Commission may designate have agreed to comply with such terms and conditions as may be imposed by the Commission.

PART IX

TRUSTEE AND TRUST INDENTURE PROVISIONS

64. A copy of the trust indenture under which capital securities are issued shall be deposited with the Commission.

65. Trust indentures to which a finance company is a party as an issuer or guarantor of a capital security and trust indentures that are expressed to be governed by the laws of Ontario shall contain or, if they do not, shall be deemed to contain provisions substantially to the following effect:

1. In the exercise of the rights, duties and obligations prescribed or conferred by the terms of the trust indenture, the trustee shall exercise that degree of care, diligence and skill that a reasonably prudent trustee would exercise in comparable circumstances.
2. A person shall not be appointed a trustee under a trust indenture if a conflict of interest exists in the trustee's role as a fiduciary thereunder, and a trustee under a trust indenture shall resign from office in the event that a conflict of interest subsequently arises.
3. In the exercise of his rights, duties and obligations, the trustee may, if he is acting in good faith, conclusively rely, as to the truth of the statements and accuracy of the opinions expressed therein, upon certificates or opinions

conforming to the requirements of the trust indenture if the indenture contains provisions complying with section 66.

4. The trustee shall be required to give to the holders of capital securities issued under the trust indenture, within thirty days after the occurrence thereof, notice of every event of default arising under the trust indenture known to the trustee unless the trustee in good faith determines that the withholding of such notice is in the best interests of the holders of the capital securities and so advises the finance company, and the Commission in writing.

66.—(1) A trust indenture to which this Part applies shall contain provisions substantially to the following effect:

1. The finance company that is the issuer or guarantor of the capital securities issued under the trust indenture shall furnish to the trustee evidence of compliance with every covenant or condition specified in the trust indenture relating to,

- (a) the certification and delivery of capital securities under the trust indenture;
- (b) the release or release and substitution of property subject to any mortgage, charge, lien or other encumbrance created by the trust indenture;
- (c) the satisfaction and discharge of the trust indenture;
- (d) the issuance of additional capital securities thereunder; and
- (e) any other action or step required to be taken by the trustee under the trust indenture or as a result of any obligation imposed by the trust indenture.

2. Evidence of compliance referred to in item 1 shall consist of,

- (a) statutory declarations made by officers of the finance company authorized by the trust indenture stating that the covenant or condition has been complied with in accordance with the terms of the trust indenture;
- (b) an opinion of a solicitor that the covenant or condition has been complied with in accordance with the terms of the trust indenture; and
- (c) in the case of a covenant or condition compliance with which is subject to the review or examination by auditors or accountants, an opinion or report of the auditor of the finance company or of an accountant acceptable to the Commission, in each case approved by the trustee, as to the accuracy or reliability of the statements required to be reviewed or examined and whether or not the statements have been made in accordance with the terms of the trust indenture.

3. A statutory declaration, opinion or report required under clause *a* of item 2 shall include,

- (a) a statement by the person making or giving such statutory declaration, opinion or report that he has read and is familiar with the covenant or condition;
- (b) a brief statement of the nature and scope of the examination or investigation upon which the statements or opinions contained in the statutory declaration, opinion or report are based;
- (c) a statement that, in the belief of the person making or giving the statutory declaration, opinion or report, he has made such examination or investigation as is necessary to enable him to express an opinion whether the covenant or condition has been complied with; and
- (d) a statement whether in the opinion of such person the covenant or condition has been complied with.

(2) Nothing in this section prevents the inclusion in a trust indenture of provisions requiring evidence of compliance with covenants or conditions in addition to those specified in this section.

67. A trust indenture to which this Part applies shall not contain any provision relieving the trustee from liability arising thereunder, except that under the terms of the trust indenture the trustee may conclusively rely, as to the truth of the statements and the accuracy of the opinions expressed therein, upon statutory declarations, opinions or reports conforming to the requirements of section 65 if the trustee acts in good faith and examines the evidence furnished to him under that section in order to determine whether such evidence conforms to the applicable requirements of the trust indenture.

68. A trustee under a trust indenture to which this Part applies and any associate of such trustee shall not be appointed a receiver or receiver and manager or liquidator of the assets or undertaking of the finance company that issued or guaranteed the capital securities under the trust indenture.

69. No person shall act as a trustee under a trust indenture unless the person has posted with the Commission a bond or other adequate security requiring the person to discharge the obligation set out in the trust indenture and the bond or other adequate security shall be in the same amount as would be required to be posted by a person or company appointed to act as administrator of an estate of the same size as the amount of capital securities to be outstanding under the trust indenture.

70. Sections 65, 66 and 67 do not apply to any trust indenture entered into before the coming into force of this Regulation.

6. Ontario Regulation 101/67 is amended by adding thereto the following forms:

Form 9a

The Securities Act, 1966

INFORMATION REQUIRED IN PROSPECTUS OF FINANCE COMPANY

ITEM 1. Distribution Spread:

The information called for by the following Table shall be given, in substantially the tabular form indicated, on the outside front cover page of the prospectus as to all securities being offered for cash (estimate amounts, if necessary).

TABLE

	COLUMN 1	COLUMN 2	COLUMN 3
	Price to public	Underwriting discounts or commissions	Proceeds to issuer or selling security-holder
Per unit...
Total.....

Instructions:

1. Only commissions paid or payable in cash by the issuer or selling security holder or discounts granted are to be included in the Table. Commissions or other consideration paid or payable in cash or otherwise by other persons or companies and consideration other than discounts granted and other than cash paid or payable by the issuer or selling security holder shall be set out following the Table with a reference thereto in column 2 of the Table. Any finder's fees or similar payments shall be appropriately disclosed. Where debt securities are offered the price to the public, the underwriting discounts and commission and the proceeds to the finance company, except with the consent of the Director, shall be expressed as a percentage.
2. If it is impracticable to state the price to the public, the method by which it is to be determined shall be explained. In addition, if the securities are to be offered at the market, indicate the market involved and the market price as of the latest practicable date.
3. If any of the securities offered are to be offered for the account of existing security holders (secondary distribution), refer on the first page of the prospectus to the information called for by Instruction 3 to Item 23.
4. With the consent of the Director the information called for by the Table may be given in narrative form.

ITEM 2. Plan of Distribution:

- (a) If the securities being offered are to be sold through underwriters, give the names of the underwriters. State briefly the nature of the underwriters' obligation to take up and pay for the securities.
- (b) Outline briefly the plan of distribution of any securities which are to be offered by the issuer, either as security issuers, or by means other than through underwriters.

Instructions:

1. All that is required as to the nature of the underwriters' obligation is whether the underwriters are or will be committed to take up and pay for all of the securities if any are taken up, or whether the underwriting is merely an agency or "best efforts" arrangement under which the underwriters are required to take up and pay for only such securities as they may sell to the public. Conditions precedent to the underwriters' taking up the securities, including "market outs", need not be described except to the extent that such conditions precedent are not satisfied prior to the commencement of the sale of the securities to the public.
2. The word "issuer" as used in this item includes, in addition to an issuer, any person directly or indirectly controlling or controlled by the issuer, or any person under direct or indirect common control with the issuer and any person who has a dominant interest in the issuer or in whom the issuer has a dominant interest.

3. Instruction 1 to Item 8 applies to this item *mutatis mutandis*.

ITEM 3. Use of Proceeds to Issuer:

- (a) State the estimated net proceeds to be derived by the issuer from the sale of the securities to be offered, the principal purposes for which the net proceeds are intended to be used and the approximate amount intended to be used for each such purpose.
- (b) State the particulars of any provisions or arrangements made for holding any part of the net proceeds of the issue in trust or subject to the fulfilment of any conditions.

Instructions:

1. Details of proposed expenditures are not to be given except as otherwise required hereunder. If any substantial part of the proceeds has not been allocated for particular purposes, a statement to that effect shall be made together with a statement of the amount of the proceeds not so allocated.
2. Include a statement regarding the proposed use of the actual proceeds if they should prove insufficient to accomplish the purposes set out, and the order of priority in which they will be applied. However, such statement need not be made if the underwriting arrangements are such that, if any securities are sold to the public, it can be reasonably expected that the actual proceeds of the issue will not be substantially less than the estimated aggregate proceeds to the issuer as shown under Item 1.
3. If any material amounts of other funds are to be used in conjunction with the proceeds, state the amounts and sources of such other funds. If any material part of the proceeds is to be used to reduce or retire indebtedness, this item is to be answered as to the use of the proceeds of the indebtedness if the indebtedness was incurred within the two preceding years; otherwise, it will suffice to state that the proceeds are to be used to reduce or retire the indebtedness.

4. If any material amount of the proceeds is to be used directly or indirectly to acquire assets, otherwise than in the ordinary course of business, briefly describe the assets, and, where known, the particulars of the purchase price being paid for or being allocated to the respective categories of assets (including intangible assets) that are being acquired and, where practicable and meaningful, give the name of the person or company from whom the assets are to be acquired. State the cost of such assets to the issuer and the principle followed in determining such cost. State briefly the nature of the title to or interest in such assets to be acquired by the issuer. If any part of the consideration for the acquisition of any such assets consists of securities of the issuer, give brief particulars of the designation, number or amount, voting rights (if any) and other appropriate information relating to such class of securities, including particulars of any allotment or issuance of any such securities within the two preceding years.

ITEM 4. Sales Otherwise than for Cash:

If any of the securities being offered are to be offered otherwise than for cash, state briefly the general purposes of the issue, the basis upon which the securities are to be offered, the amount of compensation paid or payable to any person or company and any other expenses of distribution, and by whom they are to be borne.

Instruction:

If the offer is to be made pursuant to a plan of acquisition describe briefly the general effect of the plan and state when it became or is to become operative. As to any material amount of assets to be acquired under the plan, furnish information corresponding to that required by Instruction 4 to Item 3.

ITEM 5. Share and Loan Capital Structure:

Furnish in substantially the tabular form indicated, or where appropriate in notes thereto:

- (a) Particulars of the share and loan capital of the issuer.
- (b) Particulars of the loan capital of each subsidiary of the issuer (other than loan capital owned by the issuer or its wholly-owned subsidiaries) whose financial statements are contained in the prospectus on either a consolidated or individual basis.
- (c) The aggregate amount of the minority interest in the preference shares, if any, and the aggregate amount of the minority interest in the common shares and surplus of all subsidiaries whose financial statements are contained in the prospectus on a consolidated basis.
- (d) The aggregate amount of the minority interest in the preference shares, if any, and the aggregate amount of the minority interest in the common shares and surplus of all subsidiaries whose financial statements are contained in the prospectus on an individual basis and not included in the consolidated financial statements.
- (e) Disclose any potential dilution of the assets per share and earnings per share in a computation, giving effect to the current issue and to all existing options, warrants and conversion rights in relation to any capital security of the finance company.

TABLE

COLUMN 1	COLUMN 2	COLUMN 3	COLUMN 4	COLUMN 5
Designation of security	Amount authorized or to be authorized	Amount outstanding as of the date of the most recent balance sheet contained in the prospectus	Amount outstanding as of a specific date within 30 days	Amount to be outstanding if all securities being issued are sold
.....

Instructions:

1. Include indebtedness classified as current liabilities when such liabilities are evidenced by drafts, bills of exchange, banker's acceptances or promissory notes as an aggregate amount and by classes.
2. Set out in a note to the Table a cross reference to any note in the financial statements containing information concerning the extent of obligations arising by virtue of leases on real property.
3. Individual items of indebtedness which are not in excess of 3 per cent of total assets as shown in the balance sheet referred to in column 3 may be set out in a single aggregate amount under an appropriate caption such as "Sundry Indebtedness".
4. Where practicable, state in general terms the respective priorities of the indebtedness shown in the Table.
5. Give particulars of the amount, general description of and security for any substantial indebtedness proposed to be created or assumed by the issuer or its subsidiaries, other than indebtedness offered by the prospectus.
6. No information need be given under column 2 with respect to the common and preference shares of subsidiaries.
7. For the purposes of column 3, in computing the amount of the minority interest in the subsidiaries whose financial statements are contained in the prospectus on an individual basis and not included in the consolidated financial statements, such computation may be based on the financial statements of each such subsidiary contained in the prospectus.
8. In computing the minority interest in the subsidiaries for the purposes of column 4, the amount set out in column 3 may be used provided that appropriate adjustment is made to such amount to reflect any change in the percentage of ownership in the capital and surplus of any subsidiary by the minority interest.
9. The thirty-day period referred to in column 4 is to be calculated within thirty days of the date of the preliminary prospectus or the date of the prospectus filed under section 56, as the case may be.
10. The information to be set out in column 5 may be based upon the information contained in column 4, adjusted to take into account any amounts set out in column 4 to be retired out of the proceeds of the issue.

11. Where the amount outstanding as of a specific date within thirty days cannot be precisely calculated, so state; an estimated figure should be used, with a note indicating the basis of calculation and the reasons therefor.
12. In the case of short term notes issued on an agency basis, column 5 may, with the consent of the Director, be omitted.

ITEM 6. Operations of the Issuer:

Employing tabular form where appropriate, with such explanatory notes as are essential to an investor's appraisal of the securities being offered, set forth the following information in respect of the issuer, its subsidiaries and affiliates:

Maturity of Receivables

- (a) Set out a schedule of receivables showing receivables:
- (i) due in the current financial year;
 - (ii) due within the next subsequent financial year;
 - (iii) due within the two years next thereafter; and
 - (iv) due at any later date.

Analysis of Outstanding Receivables

- (b) Give in tabular form, including, for example, wholesale, retail motor vehicle loans, whole-sale, retail industrial, consumer loans, mortgages, leasing, business loans, dealer capital loans and any other type of loan constituting a significant class of business. Indicate the approximate amount and percentage of sales finance receivables covered by dealer endorsement or repurchase agreements.

Interest and Dividend Coverage Applicable to the Issue

- (c) Disclose the earnings which will be available to meet the interest and dividend requirements of the finance company according to the various classes and priorities of securities outstanding.

Interest Coverage

- (d) Show interest coverage:
- (i) using the Prior Deduction Method;
 - (ii) using the Cumulative Deduction Method; and

- (iii) in the case of holding companies, include the dividend requirements on underlying preferred stock issues and minority interests as well as fixed charges on subsidiary debt.

Methods of Calculating Coverage

- (e) Where there are one or more classes of debt securities and one or more classes of preferred shares, both of the following formulas shall be used to calculate interest and dividend coverage:

(i) Net Earnings After Tax

Preferred Dividends

(ii) Net Earnings After Taxes But Before Interest

Interest + Preferred Dividends

Asset Coverage

- (f) Disclose, on a *pro forma* basis, the net assets available to cover the securities offered.

In calculating asset coverage, indicate the number of times net assets available will cover the claims of the issue plus all senior and equivalent claims.

ILLUSTRATION:

Coverage of Borrowed Funds	Asset Value Borrowed Funds
Coverage of 1st Preferred	Asset Value Borrowed Funds and 1st Preferred
Coverage of 2nd Preferred	Asset Value Borrowed Funds and 1st Preferred and 2nd Preferred

Funding Requirements

- (g) Show the aggregate current sinking fund requirements and maximum purchase fund requirements for the succeeding five years. Segregate this information according to the class and series of security covered. Do not repeat details given in the prospectus relating to the rights, privileges and preferences of each class of security ranking prior or *pari passu*. In addition, provide an analysis setting forth commitments which must be met both as to sinking fund requirements and the maturing of long term debt, indicating the amount due within,

- (i) one year;
- (ii) one year to two years;
- (iii) two years to three years;
- (iv) three years to five years;
- (v) five years to ten years; and

- (h) Show the finance company's liquid capital position based on the financial position as of the date of the balance sheet in the prospectus both before and after giving effect to the

proposed issue. Include assets which will be due within the next twelve months and the liabilities payable within the same period. Where there is a deficiency in liquid capital, explain the significance thereof having regard to the financial structure, the mode of operation of the company, and the prior experience of the company.

- (i) If the effective tax rate is significantly less than is normally paid by finance companies generally, explain the principal reasons for such tax rate.
- (j) Indicate those subsidiaries and operations which have produced material operating losses within the preceding two financial years, giving details thereof.
- (k) Set out the amounts of the finance company's credit losses for each of the preceding five financial years and show such amounts as a percentage of liquidations, and of average outstandings.

Instructions:

- Where there is more than one class of debt, the Prior Deductions Method of calculating interest coverage consists of first deducting the carrying charges related to the senior issue(s) from available earnings and then calculating the number of times interest on the issue in question is covered by the remaining earnings. On the Cumulative Deductions Method the total carrying charges of all debt ranking ahead of or *pari passu* with the issue in question is divided into available earnings.
- In answering this item, give appropriate details of the quality, collectibility and arrears of receivables and include an age analysis of accounts receivable, and the percentage of receivables refinanced after being in arrears for periods from three months to in excess of eighteen months.

ITEM 7. Name and Incorporation of Issuer:
